

Secured Climate Controlled Storage Facility

Depend on the modern storage solutions of Cal Side Marina LLC in Burnham, Illinois, to ensure the physical and mechanical integrity of your vessel. We offer winterization, shrink wrapping, outdoor and indoor heated storage which protects your boat from weathering and damage.

Winterization for Boats

When the boating season ends, winterizing your boat is your best option before storing it. This service may include mildew protection, winterize crucial parts of your boat like your engines, water system, head, refrigerator and covers your boat, etc...

Shrink Wrapping

Encasing your boat in shrink wrap is a great way to protect it from the harsh winter environment. We provide shrink wrapping for outdoor storage clients.

Heated Indoor Storage

Sign up with our indoor storage contract and keep the elements of weather away. Just pay the deposit and sign the contract for a seasonal rate. Inquire about short term storage.

Outdoor Storage

Protecting your boats from harmful weather is our top priority. This service may also cover the same parameters as indoor storage but with more rates to choose from. Inquire about short term storage. Shrink wrapping available.
